Industry Institute Interaction Cell

The Industry Institute Interaction Cell (IIIC) at Annasaheb Dange College of Engineering and Technology (ADCET) is intended to facilitate the process of close industry-institute interaction and actively promoting fresh avenues for the same. IIIC strives to enhance industry interaction with students and bridge the gap between academia and corporate world. This will have a positive impact on the Engineering curriculum, exposure of industrial atmosphere to engineering students and subsequent placement of the graduating engineers in industries across the globe.

Vision

- To create avenues for the students to have greater exposure for industrial environment and to become most preferred institute for industrial recruitment and research.

Mission

- To create ADCET as a hub in industrial research, consultancy and continuing education and to create an environment to synchronize the skills of students with the needs of industry.

Objectives

- To develop close links with industries through industry institute interaction activities.
- To promote placement of students in industries.
- To provide industry exposure through industrial training, industry sponsored projects and industrial visits for the students and faculty.
- To float industry specific add-on courses at the institute.
- To enhance participation of industrial experts in curriculum design.
- To generate revenue through testing, consultancy and research.
- To develop laboratories in collaboration with industries.
- To organize seminars, symposiums, exhibitions and workshops on latest technological advancements with the collaborative efforts between industrial experts and institute departments.
